

Neues AMD GPU Menue Tool!, seit Ventura gibt der AMD Treiber wieder Infos zu GPU CLK, Mem CLK, Fan Speed, Power, etc. aus ...

Beitrag von „mitchde“ vom 8. Januar 2023, 18:14

Thanks! I also tried HWMonitorSMC 2 but perhaps different Version? - i only got GPU Temp, no other GPU values.

I think your version also (by activate that in the the preferences) can use the performance values from the AMD driver.. i think.

Do you have a link to that version?

Would be also great beside my app.
