

Benötigen Sie Hilfe bei der Installation von Windows 11 unter Windows 10

Beitrag von „apfel-baum“ vom 11. Januar 2023, 16:22

[Tyson Dicki](#)

you need a second license of win 7/10/11 if you want to use 2 operating systems (windows)at the sam time, it's your choice- get another ssd drive, plug the cables from the other sata devices off. install win 11 on the new device- plug the cables of the devices back-> that's maybe a way
