Lenovo M900 Tiny Hackintosh

Beitrag von „rickythadragon" vom 12. Januar 2023, 20:28

I have the same system mine is a lenovo m700 tc-fw intel hd 530 i7 6700t etc. I can hook you up bro. Give me just a few and ill send you an efi. The ACPI FILE will be all in one file. Then after you get installed if you want the DSDT adjusted for post install then hit me up and ill hook that up too. Ok. give me about a couple hours cuz i gotta take vcare few things around house but i gotcha ill take of it here in just a few You got my word

Here is the google drive link for the efi . its 26 mb i couldnt get it under that to upload direct

. Anyway there it is let me know whats up
