

# macOS 13 VENTURA beta

Beitrag von „fabiosun“ vom 15. Februar 2023, 08:07

[Zitat von Henniges](#)

hat schon jemand OC 089 installiert?

yes it works well

here only an aesthetics problem if you use verbose and graphical menu

verbose is printed on graphical menu

(I do not know if I have to change some option in config.plist, fo ocvalidate it is good)
