

Ventura + DaVinci Resolve Freeze alle 15 min.

Beitrag von „kavenzmann“ vom 17. März 2023, 18:30

I'm not sure. But ethernet seems to work pretty well here.

Is there something better?

It's a pretty old setup, that [apfelnico](#) did for me once.

Since he's not active here anymore, I try to update the EFI myself.

This is more or less reading stuff and using OCAT for the updates.
