

CSRUTIL STATUS

Beitrag von „Bob-Schmu“ vom 13. April 2023, 16:21

Entweder hast du deine EFI nicht selber gemacht oder ein vorgefertigtes config Sample genommen für dein System.

Standard ist [SIP](#) enabled

Key	Type	Value
del	del	
del	del	
#WARNING - 1	string	This is just a sample. Do NOT try loading it.
#WARNING - 2	string	Ensure you understand EVERY field before booting.
#WARNING - 3	string	In most cases, recommended to use Sample.plist
#WARNING - 4	string	Use SampleCustom.plist only for special cases.
