

OC DELL Latitude E6420

Beitrag von „Mo-6420“ vom 7. Juni 2023, 18:19

Hi everyone,

Now i'm trying to install the new macOS Sonoma (or 14 beta) using the last OC (0.9.3) and the last Clover (5152)

As you know ventura have many bugs on old mac and PC

I hope Sonoma will not....

Good luck for you and me too
