

OC DELL Latitude E6420

Beitrag von „taube111111“ vom 7. Juni 2023, 22:40

Hey bro, you should take a look into this project: <https://www.insanelymac.com/fo...pen-core-legacy-patching/>

After this guide i got my E6410 on Monterey with full graphics acceleration! THIS is awesome maybe it helps u 😁 Ventura is possible too.
