

OC DELL Latitude E6420

Beitrag von „Mo-6420“ vom 18. August 2023, 15:30

Hi Hécatomb and eveyone,

For me and with macOS Sonoma, using both HeliPort + itlwm Beta verion

100% working with no problems as you see

BUT

I hope see an Airportitlwm soon because in my macOS Ventura works too

Good work

And thank you very much
