

# MacOS Ventura Blackscreen

Beitrag von „fabiosun“ vom 11. September 2023, 15:49

[Zitat von Fyynn](#)

But which Kext i need? Because Opencore said on I225 is no kext required

where Opencore said this?

i cant open your EFi (it gives an error)

attached is the kext valid from ventura and above (remember also to add the bootarg (e1000=0)

Edit:

Ah you quote Dortania (it is not opencore, and in that part is not updated / accurated for your system and new OS)
