

Anleitung für Broadcom-WLAN-Patch unter macOS Sonoma

Beitrag von „fabiosun“ vom 25. September 2023, 18:39

i have some problem with Continuity feature in Sonoma from Beta 7 (it is the same with the latest RC)

I can't use my iphone with facetime or photobooth apps (only black screen)

Same EFI works perfectly in Ventura OS

Someone of you had the same problem with this feature?

I have tested many combination of featureunlock kext..but noones work (in sonoma)
