

Monitor geht vorm Loginscreen in Standby

Beitrag von „towade“ vom 5. Oktober 2023, 10:14

Guten Morgen liebe Leute.

Mit der [EFI-0.9.5_Z590-towade.zip](#) habe ich Sonoma erfolgreich installieren können.

Danach habe ich nichts mehr an der config oder den Kexten geändert. Es läuft auch ca 2-3 mal rund.

Wenn ich dann aber den Rechner starte, habe ich das obengenannte Problem auch: Verbose Mode läuft durch, aber kurz vorm Login-Bildschirm schaltet der Monitor in den Standby und nichts geht mehr.

OpenCore habe ich jetzt bereits zwei mal komplett neu erstellt, das hilft leider nicht.

Wenn ich Sonoma neu drüber installieren, funktioniert es wieder 2-3 Mal, dann selbes Problem.

Hardware: Gigabyte Z590 Vision G, Intel i9-10900KF, Corsair 64 GB DDR4, Powercolor Radeon RX 5700 XT 8GB

Hier ein Log von OpenCore:

Code
