I9 X299 Hackintosh macOS 14

Beitrag von „KungfuMarek" vom 31. Dezember 2023, 15:51

USB3 Ports haben einen USB2 Anteil und einen USB3 Anteil, **daher 1x USB3 = 2 Ports.**

Bei dir sind alle Ports, als USB3 gemappt. Daher hast du 18 Stück.

Ich weiß nicht wie oft es hier schon geschrieben wurde:

Schwarzer USB Port = USB2 = USB 2 Stick einstecken.

Blauer USB Port = USB3 = USB 3 Stick einstecken.

In deinem Screenshot siehst du Port 14 -> Bluetooth. Dieser muss auf internal=255 gemappt werden. Das ist Port HS14.

Und bei den Ports steht sogar bei USB2 und USB3. Entscheide dich für 15 Ports und arbeite mit einem USB2 Stick und USB3 Stick.
