

X299 Tutorial - ASUS WS X299 SAGE/10G (Hilfe und Diskussionen)

Beitrag von „edifant“ vom 21. März 2024, 10:47

[Extrem](#)

The screenshot shows the ASUS BIOS update utility interface. At the top, it says "WS X299 SAGE/10G" with links for "Overview", "Test Spec", "News", and "Support". Below this, there are four update cards, each with a "DOWNLOAD" button. The first card is for BIOS version 4201 (dated 03/19/2024) with the note "1. Improved system performance". The second card is for BIOS version 4801 (dated 03/19/2024) with the note "7. Recommended for vital updates to mitigate the potential security vulnerabilities" and "8. Improve system stability". The third card is for BIOS version 3901 (dated 03/05/2024) with the note "10. Update CPU microcode for Intel security issues" and "12. Improve system stability". The fourth card is for BIOS version 3701 (dated 03/05/2024). Each card also includes a "SHOW MORE DESCRIPTION" link.

es have got date 03/19/2024 - they are

jokers!
