

# **Install Monterey/Big Sur on any X79 Motherboard Huananzhi Chinese gigabyte etc and PowerManagement**

**Beitrag von „waltervianacom“ vom 9. Juni 2024, 20:46**

Hello, congratulations on the excellent work. I'm installing on an x-79 with E5 2697 V2 12 cores, but I'm getting a compilation error when trying to save the file. Could you be so kind as to edit it for me?
