

# OC DELL Latitude E6420

Beitrag von „I BigSUR“ vom 21. Juni 2024, 08:30

[Mo-5590](#) thanks for your information firstfole . iam rechecked my all settings but all thinks are same position

Iam used to create USB method through rufus

<https://dortania.github.io/Ope...install.html#rufus-method>

and put your EFI and finely got my best result so far .so whats next

Please explain what problem
