

OC DELL Latitude E6420

Beitrag von „Mo-6420“ vom 21. Juni 2024, 14:03

Here in this Forum

There are many answers for your questions

Just read it slowly

And keep trying

Because there is no problem with efi big sur

Just use a mac to creat the usb no rufus, no windows, no linux

Just opencore legacy patcher

Or terminal method

Keep trying and good luck
