

OC DELL Latitude E6420

Beitrag von „I BigSUR“ vom 21. Juni 2024, 16:17

[Mo-6420](#) your right I got other method. olarila iso image. No problem with uefi

You say that no windows but I can't find Mac device . Please help install Mac in windows

.olarila isn't safe I don't know

I don't know olarila and recovery methods is same . Can I create boot USB with this olarila . I am tried to install Mac since last week even I don't know what is Uefi or legacy last day .iam a beginner . I think you got it my situation
