[Mo-5590](#)

[apfel-baum](#)

In this case

Please give a solution

What's wrong ,EFI or **Recover file**(com.apple.recover.boot)

I tried many times but not seen

Install Bigsur option .I just confused between this two files.wich will modify(**EFI, recover file**),

No way to get any Mac device to me ,so somebody help me

I just want **INSTALL BIGSUR** option in my boot option ,still I am keep trying
