hello friends,

i'm trying to install MacOS big sur but it keeps freezing when I'm trying to go to that efi directory

and i've searched all pages of this forum but i can't find my solution, please help.

here is the image

it freezes here

and my laptop is dell latitude E6420 with bios version A26

my specs are-

cpu- intel i5 2520M

gpu1- intel hd3000

gpu2-nvidia nvs4200M

and i have hdd
