Oh boy.

Unless there is an open source license placed in the source folder by the original author, then it is closed source.

Even if you have the source all you do is illegal (until you are the original author)

So you asking people to do a crime.

(When you want people to work on maybe stolen source code)

THIS IS A CRIME IN GERMANY

And this is definitely against so forum rules. **(5.3)**

THAT IS THE PROBLEM I HAVE with your behavior.

Ok with #66 i **violated (5.1.1) -> but it was the shortest possibility to answer.**
