

macOS 15 Sequoia Beta im Test

Beitrag von „SchmockLord“ vom 17. Juli 2024, 14:22

Did the Beta 3 with 24A5289h require other changes (new kexts or config.plist) that the 24A5289g didn't require?!

Even with fresh install of the 24A5289h I end in a boot loop.
