

# macOS 15 Sequoia Beta im Test

Beitrag von „MacGrummel“ vom 15. August 2024, 21:47

Nö, OpenCorePatcher.app (GUI) hinten in der Zeile runter laden. Fertig!

The screenshot shows a GitHub Actions workflow run for 'Build wxPython' with a status of 'Success'. The workflow was triggered by a push to the 'sequoia-development' branch. The total duration was 14m 49s, and 4 artifacts were produced. The artifacts are listed in a table below:

Name	Size	Download
AutoPkg-Assets.pkg	572 MB	Download
OpenCore-Patcher-Uninstaller.pkg	156 KB	Download
OpenCore-Patcher.app (GUI)	573 MB	Download
OpenCore-Patcher.pkg	572 MB	Download

The download icon for 'OpenCore-Patcher.app (GUI)' is circled in red in the original image.
