AppleHDA für Conexant CX20590 (Lenovo G580)

Beitrag von „skullcandy“ vom 7. September 2013, 12:42

Bin am testen und gebe gleich Rückmeldung

So hier mal das Ergebnis:

Zitat

dsdty.aml

Sound assertion "false == streamInfo->IsActive" failed in AppleHDAController at line 5683 goto Exit

Sound assertion "false == streamInfo->IsActive" failed in AppleHDAController at line 5767 goto Exit

Sound assertion "0 != fController->getAudioStreamLinkPositionInBuffer (this, &position)" failed in IOHDASStream at line 401 goto handler

Sound assertion "fIsRunning" failed in AppleHDAEngine at line 5464 goto Exit

Sound assertion "0 != result" failed in AppleHDAEngine at line 5531 goto handler

Sound assertion "0 != engine->handlePowerStateChange (powerState, isShutdownRequest)" failed in AppleHDADriver at line 3241 goto handler
