

OC DELL Latitude E6420

Beitrag von „Mo-5590“ vom 8. Januar 2025, 18:10

For the geek of making their own "background" or "thèmes"

This is the one and he is one of the best master of hackintosh in the world

Chris1111

Use these 2 tools to make your own Opencore:

<https://github.com/chris1111/O...Generator/releases/tag/V6>

<https://github.com/chris1111/Background-Resizer>

Don't forget to install Xcode for using background-Resizer

Clover

It is just a png pic
