

[AM5] x870e Asrock taichi lite

Beitrag von „Triso01“ vom 11. März 2025, 13:21

Hello [TUNIN96](#),

the RTX 5060 won't be a good idea.

It's not supported by macOS. The newest supported card is the AMD 6900xt. Look here to get more information: <https://dortania.github.io/Ope...s-limits.html#gpu-support>
