

Erledigt

gleich mehrere Probleme Core i7-4770K - GA-Z87N-WIFI - HD4600

Beitrag von „teitz“ vom 7. Dezember 2013, 12:43

sorry, hat lange gedauert. aber hier mein log:

kommt am tag mehrmals vor. nicht nur mit google chrome, auch schon direkt nach dem booten...

Dec 7 12:32:27 *s-mac-pro kernel[0]: NVDA(OpenGL): Channel timeout!

Dec 7 12:32:27 *s-mac-pro kernel[0]: NVDA: Unable to make context resident prior to start of command buffer processing!

Dec 7 12:32:27 *s-mac-pro kernel[0]: NVDA: Calling glrKillClient for task 0xffffffff8016c26580

Dec 7 12:32:28 *s-mac-pro.fritz.box Google Chrome Helper[320]: Internals of CFAllocator not known; out-of-memory failures via CFAllocator will not result in termination.
