Asus Z97-K R 2.0 Ozmosis 167X

Beitrag von „wiliam.ding“ vom 24. Mai 2016, 10:25

This is the Ozmosis BIOS for Asus Z97 - k R 2.0

But this bios file can't be update by EZ flash because the security verification.

So you have to find a way to flash this .

You must use AFUDOS for flash your bios.

Follow:

<https://www.wimsbios.com/amiflasher.jsp>

<http://www.overclock.net/t/454...herboards-and-video-cards>

<http://www.win-raid.com/t821f1...a-ASUS-Z-Motherboard.html>

EDIT: and use this ROM. You have now sensors in ROM
