## hey i am new in ozmosis

**Beitrag von „ziskinb“ vom 16. Januar 2017, 07:36**

hey i am new in ozmosis my system specs

asus z97-deluxe

I7 4790k

GTX 970

32GB RAM

El capitan 10.11.6

my problem is when i load el capitan

some time it loads from Uefi from another hard drive/usb

and all the kext and dsdt that in Uefi not Loading i have allot hard drive are connected to pc  
and it problem

some one have it or figure hove to solve this problem ???
