Who can help me convert the default.plist (Clover to Ozmosis) ?

Beitrag von „naonao5321“ vom 21. Januar 2018, 15:03

Who can help me convert the default.plist (Clover to Ozmosis) ?

I try to use the Ozmosis ToolBox, but it doesn't work, choose the clover config file, then read selected plist, the "Ozmosis ToolBox" shows "File Doesn't Exist, Will Create: /Users/luigi/Desktop/Default_11_24_52.plist"

anyone can help me ? thanks!

I upload the clover config file "config.plist", please convert to Ozmosis config file or ffs, thanks very much!
