Nvidia Geforce 210

Beitrag von „Druso“ vom 25. Juni 2018, 14:11

the Nvidia Geforce 210 video card is compatible with Macos Mojave 10.14 ..?

Beitrag von „KayKun“ vom 25. Juni 2018, 15:44

No ther is no Metal Support

Beitrag von „Druso“ vom 25. Juni 2018, 15:59

which basic Nvidia video card models are compatives with Mojave 10.14? Is Intel HD 3000 compatible ...?

Beitrag von „anonymous_writer“ vom 25. Juni 2018, 16:03

Starting from the HD4000 it is compatible. HD3000 > High Sierra

which Nvidia Geforce video cards is compatible with Mojave 10.14 ...?

Beitrag von „anonymous_writer“ vom 25. Juni 2018, 16:20

Fore sure all GeForce-900-series (Maxwell) and GeForce-10-series (Pascal) with Webdriver. But Webdriver will come with the official release of Mojave.

really? so there is no more neded to install third party drivers from nvidia?

Beitrag von „anonymous_writer“ vom 25. Juni 2018, 18:51

You will still need the Webdriver from Nvidia.
