

In Arbeit **Lenovo E460 Installation boot problem**

Beitrag von „frknustn“ vom 20. Mai 2020, 15:10

Hi everyone.

I can install and use High Sierra. There is no problem for that.

And I tried install Catalina to my PC. But i couldnt do that.

PC

Lenovo ThinkPad E460 - Core i5 6200U -Intel HD520 - 4 GB Ram - 120 GB SSD

I tried with this EFI folder but i take that. Help me PLEASE
