**Beitrag von „PAPAR073“ vom 18. Februar 2022, 15:57**

Hello,

I would like to know how to convert my XPS to Hackintosh. I downloaded your ZIP file but I don't know what to do with it.

Can you guide me?

Thank you

Hello,

sure I'll try. First you have to follow the Open Core Guide and create a USB stick for the installation

When you have finished the task we can move on
