

Anfrage aus dem HWC - Dell XPS 13 9343

Beitrag von „Minh Thuc“ vom 3. November 2022, 07:35

I was copied Venture EFI but macos venture is not compatible with this mac. Can you help me?

There was a mistake inside the config.plist. Now I've fixed it and you can try it again. Please create new Serial numbers as well.

Please also fill in your spec in your profil especial for the cpu. 😊
